## CAREER OBJECTIVE

Looking for an SQA role to use my attention to detail and problem-solving skills. I want to help improve software quality, make it more reliable, and ensure a better user experience. Excited to learn new testing tools, work in a team, and grow my skills in real-world projects.

## EXPERIENCE

### REDDOT DIGITAL LIMITED | SOFTWARE QUALITY ASSURANCE | INTERN

June 2025 - October 2025 | Gulshan South Avenue, Dhaka 1212

- Tested Banking HRIS solution through manual testing, including writing test cases, executing user acceptance testing (UAT), and preparing documentation.
- Performed manual, API, and mobile application testing for Mobile Financial Services (MFS) solution.
- Created and maintained detailed test cases, ensuring coverage for functional and integration scenarios.
- Documented test results, defects, and process improvements to support development and QA teams.

## PROJECTS

### PLAYWRIGHT\_DAILYFINANCE\_WEB\_AUTOMATION | [GIT-LINK](#)

- Automated key features of the DailyFinance Website using Playwright and JavaScript, including user registration with Gmail API verification, login, item addition, profile photo upload, password reset, and re-login, with test data managed in JSON.

### REST ASSURED API AUTOMATION | [GIT-LINK](#)

- API testing automated using Postman and Rest Assured for Daily Finance app. Covered user/admin flows like registration, login, and item CRUD with positive and negative cases using Java, Gradle, and TestNG.

### TRANSACTION-API-TESTING | [GIT-LINK](#)

- Tested and validated a transaction system API using Postman and Newman, covering role management and various financial transactions with automated reporting.

### API PERFORMANCE TEST | [GIT-LINK](#)

- Tested Booking and Transaction APIs with JMeter for Load and Stress performance. Used API Chaining and multi-threading for DMoney's Transaction APIs with CSV data.

### JUNIT\_AUTOMATION\_PROJECT | [GIT-LINK](#)

- Automated web testing project using Selenium WebDriver with JUnit to validate form submissions on Digital Unite and WP Everest (including field input, file upload, submission, and success message assertion), and scraped latest share price table data from Dhaka Stock Exchange PLC, storing the extracted data into a text file, implemented with Java and IntelliJ IDEA.

## SKILLS

**Manual Testing:** Test Case Design, Test Execution, Bug tracking and Reporting, Test management Tools

**API Testing Tools:** Postman, Newman

**Performance Testing:** Apache JMeter

**Web Automation Testing:** Playwright, JUnit, Rest Assured

**Database:** MySQL

**Extra:** HTML, CSS, Bootstrap

## EDUCATION

### UNIVERSITY OF DEVELOPMENT ALTERNATIVE (UODA)

B.SC. IN COMPUTER SCIENCE AND ENGINEERING

APRIL 2018 - AUGUST 2022

CGPA - 3.22/4.0

## TRAINING

### FULL STACK SQA & TEST AUTOMATION

ROAD TO SDET

Feb 2025 - May 2025
